OBJECTIVE

A passionate and detail-oriented software developer seeking my first professional opportunity to apply my technical skills in programming, AI, and full-stack development. Eager to contribute to impactful, real-world projects while continuously expanding my knowledge in emerging technologies.

EDUCATION

Chitkara University, Rajpura, Punjab   *In Progress*
Bachelor of Computer Science Engineering; CGPA: 8.64

PROJECTS

QuickNotes   *HTML, Bootstrap, JS, Node.js, Express.js, MongoDB, Web Speech API*

- Developed an intuitive note-taking and task management platform.
- Executed a scalable RESTful API to handle CRUD operations efficiently.
- Deployed the advanced Web Speech API for seamless text-to-speech functionality and built a dynamic, interactive to-do-list interface with real-time status tracking.

Weather Wave   *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Weather API*

- Developed a location-based weather forecasting platform with real-time updates.
- Designed interactive visualizations for hourly and weekly weather trends.
- Provided agriculture-focused insights for optimized farming activities.

Explore Era Travels   *HTML, CSS, JavaScript, React*

- Created a user-friendly system for writing and managing travel posts.
- Developed an efficient post creation feature supporting text and image uploads.
- Enforced a detailed post view with enriched author information, enhancing user engagement and platform interactivity.

TECHNICAL SKILLS

- **Programming:** HTML, CSS, JavaScript, ReactJS, Node.js, MongoDB, Python, AI/ML
- **Languages:** C, C++, Java
- **Tools:** Git, Scikit-learn, Pandas, Matplotlib

SOFT SKILLS

- Effective team collaboration and communication
- Strong problem-solving and critical thinking skills
- Adaptability and willingness to learn

ACHIEVEMENTS

- Earned a 5-star Java rating on HackerRank
- Won 1st place in the Smart Cataloguing Hackathon as part of an all-girls team
